SECRET SERVICE CHIEF ON HAND UP AT PHOENIX

Desendorf Presumably There In Connection With Investigation of the Land Office—Agent Also at Tombstone.

PHOENIX, April 30.—H. C. Desendorf, chief of the secret service agents of the United States government, stationed in New Mexico and Arizona, arrived in Phoenix this morning and will remain here for a few days on business connected with his work. When seen yesterday, Mr. Desendorf stated that he would rather not state the precise nature of the investigations he is making here, but declared he would not be long in finishing them.

Yesterday, in Tucson, Mr. Desendorf held a conference with United States District Attorney Alexander, and he there refused also to make known the subject of their talk, other than it concerned land entries in the territory.

"I am in Arizona primarily to attend several hearings in the northern part of the territory," he volunteered. On the first of May I shall attend a hearing at Prescott in regard to the Mayer townsite. It is claimed that the land which this little city covers is more valuable for agriculture than for mineral purposes. The dispute is now an old one. Later on I shall be present at another hearing in Flagstaff."

Mr. Desendorf came to Arizona direct from Las Cruces, N. M., where he was engaged with matters that were brought to the attention of the federal grand jury and resulted in the indictment and conviction of several men found guilty of conspiracy to defraud landowners.

When asked concerning the coal lands in the vicinity of Raton and the reports published recently to the effect that the government contemplated the prosecution of railroads and other accused of fraudulently taking possession of the same, Desendorf would make no statement. It is believed, however, that civil action at least will be taken for the restoration of the property, which, it is stated, the railroads took up with script.

Desendorf was also asked for what reason one of his agents, Reinburg, was in Tombstone yesterday morning. In reply he simply said it was necessary for the government to keep in touch with the transfers of property, and for this reason an agent periodically examines records of the various county recorders.

W. B. Newman, general inspector of the land office, from Washington D. C., is also at Phoenix. He joined Inspector J. J. Macy in the investigation yesterday morning. Hildreth's books will be the first to receive an inspection, charges having been made against him. As soon as the inspectors have completed their work they will report to Washington, after which Hildreth will be given a hearing. Reports have been current for several days that Register Lyman W. Wakefield and Field Inspector Frank Thompson were under fire along with Hildreth, and that charges had been made against him.

Wakefield, whose books it has been stated are being inspected with those of Hildreth, was asked regarding the matter and replied:

"My books are not being inspected yet, though they probably will be before the matter is ended. I had much rather have them inspected than not."

Wakefield refused to discuss the charges against Hildreth or to shed any further light on the investigation. He said that all he was at liberty to say was that the investigation was being made, and that further information would have to be obtained somewhere else. For some time reports have been current that there was bad feeling between Hildreth and Wakefield, dating back several months, but that neither of them care to discuss.

GOT A BOY DRUNK: WERE FINED FOR IT

First Offense of Kind Before Justice Hogan.

L. Cooper and J. Kanner, who have in charge one of the houses just across center where is kept at No. 9, 9 Brewery Gulch, were not only fined in Justice Hogan's court, but were given the severest reprimand recently that the court has administered.

The offense was making drunk a 15 or 16 year old boy in one of the rooms of the house.

According to the testimony introduced, the boy was phoned for to deliver a message. While waiting for it to be written, he was sent after drinks. Of these he was induced to partake until he became intoxicated. It was necessary for an officer to assist in bringing him to town.

It is against the territorial statutes for a boy to enter such a place, and it is also an offense to give or sell liquor to a boy. The case is the first of the kind with which the court has had to deal.

IN HANDS OF FRIENDS IS JOE MCKEANAN

Will Permit His Name to Go Up for City Clerk.

Joseph McKeenan, whose name has been mentioned several times in connection with the city clerk's office, last night consented to allow his name to be brought before the Democratic convention which meets tonight.

McKeenan is well known to the business men and to the miners, having worked among them for years. His obliging disposition and his ability as an accountant qualify him for the position, and it is thought that should he be nominated he would not only poll the full strength of the Democratic vote, but many Republican votes as well.

IMPORTANT MEETING BOARD OF TRADE

Election Officers, Fourth July Celebration, Etc., Will Come Up For Discussion.

The Board of Trade will meet today at 2 o'clock in the city hall to dispose of several very important matters. President Buxton, who has called the meeting, is very anxious that there be a large attendance.

One of the principal matters to be disposed of is the annual election of officers. Besides this important business, the board will take up the matter of having the county seat of Cochise county moved from Tombstone to this district. There has also been considerable discussion of the advisability of securing or arranging for some kind of public celebration of the Fourth of July.

Reports of committees who have had the arrangement of the banquet will also be heard, and further steps taken toward completing arrangements for the event.

IMMIGRATION OFFICIALS ARE KEPT JUMPING

Deportations and Arrests Keep Entire Force Busy—Cortez Deported For Fifth Time in Less Than One Year.

(Special to The Review.)

TUCSON, May 1.—Yesterday proved a busy session for the immigration officers stationed at this point. Several aliens were taken to ports on the boundary line for deportation and a Chinese, alleged to be in the country contrary to law, was captured.

Captain George W. Webb, head of the immigration service in this division, went to Naco, taking with him two Mexican women, who were captured at Lowell, a suburb of Bisbee, about two weeks ago, and were found guilty of being of such character that the law they could not enter the United States. They were brought here, and a hearing was ordered.

Inspector McDonald, also stationed at this point, went to Nogales, having in custody Jesus Gonzales, an insane Mexican who was ordered deported, Sabino Cortez, a 15-year-old boy, who had already been deported four times.

Cortez was first arrested by Inspector Connell about a year ago, and deported to his native land. He made his appearance again, and was sent to his native land a second time. Nothing daunted, he returned again, and was captured when he got as far as Bisbee. He was placed under arrest there and confined in the branch county jail. He crawled through the bars and got out, but was taken into custody and deported for the third time. Yesterday morning the second deportation since then. Such perseverance seems to the officers to merit success eventually.

INTEREST IN CIVIL SUIT BEFORE HOGAN

Demurrer Filed to An Action Brought By Dr. Miner.

Considerable interest has already attached to a civil case which was come up in Justice Hogan's court. The case referred to is one in which Dr. L. L. Miner is suing George Staley, who conducts a small grocery store up Tombstone Canyon, for the recovery of \$56, said amount being alleged to be due for medical services rendered Staley's wife.

The case came up in Justice Hogan's court yesterday, at which time a demurrer was filed by Thomas Bennett, attorney for the defendant, and a counter claim for \$300 damages, alleged to have been sustained by the defendant, Dr. Miner is represented by Neale & Sutter. The case will come up next Thursday at 2 p. m. and will attract considerable attention, on account of the prominence of the parties.

The regular weekly meeting of the various committees of the Warren District Democratic Club was held last night. Favorable reports from all of the committees, which were fully represented, were heard.

A count of those who have signed the Democratic Club list was made, and it was found that there were between 1200 and 1300 who had signed the pledge to support the Democratic nominees in the coming city election. The committee on membership states that they will continue to add to the list.

AMERICAN MURDERED ON DOLORES TRAIL

S. C. White Shot While in Bed By Mexican Cut-Throats and Robbed of \$300.

Chihuahua, Mex., May 1.—S. C. White, an American who kept the half-way station on the trail to the Dolores section of the Sierra Madre and the Dolores mine in the Sierra Madre, was murdered about three days ago. All that is known here is that he was killed by Mexicans.

A bad lot of Mexicans inhabit that section of the Sierra Madre and murders of both natives and foreigners are not infrequent in that region. The slayer of P. H. Hefron, of El Paso, who was killed at his mine some six hours ride from Dolores, never was caught and the local Mexican authorities there made little or no effort to catch him. Numerous Mexicans have been murdered in the vicinity of Dolores since the discovery of the Dolores Mines Company is offering \$500 reward for the apprehension and conviction of the murderer.

White was shot and killed in bed, robbed of over \$300 in money, clothing, watch, etc.

GRAND JURY RETURNS KIDDER A VICTIM OF PLOT AT NACO

Work May Be Concluded By Noon Today—Pleas Entered by Defendants.

(Special to The Review.)

TOMBSTONE, May 1.—The grand jury made another return this morning. They will conclude their work, it is thought, by tomorrow at noon. In the report returned this morning was an indictment against George Williams charged with assault with deadly weapons at Bisbee some time ago. M. Ramirez was indicted for larceny. Glen Flippen was also indicted for larceny. He is from Lowell.

An indictment was found against Trinidad Cardenas, the Mexican who murdered a countryman in a saloon at Bisbee some time ago, and who was lately arrested by Deputy Sheriff Will White.

Pomperio Juarez will answer to a charge of horse stealing or grand larceny. He took a horse from the Greene Cattle Company ranch, it is alleged. All of these defendants will plead tomorrow morning.

Pleas of not guilty were entered this morning by defendants against whom indictments were found yesterday.

INDIAN VICEROY DEPARTED FROM HIS POLICY OF KINDNESS.

Lord Lawrence, one of the famous viceroys of India, was an able and very simple man. He used to do his work in his shirt sleeves, and discouraged as much as possible all state and ceremony. He was inclined to treat the natives like children, although he always strenuously insisted upon their meeting and receiving justice and kindness. Lord Mayo went to India to succeed him, and on the last afternoon before Lord Lawrence was to leave for home he took the incoming viceroy for a drive. On the way he impressed his doctrine of kindness very emphatically and solemnly on his successor. Lord Mayo thanked him for his helpful advice, and they returned in due course to the government house. The sycor or footman, was slow and awkward in opening the door of the carriage, whereupon Lord Lawrence jumped out in temper and gave his ear an unmistakable tug. Lord Mayo turned to the viceroy's aid with a smile. "My first practical lesson in kindness to natives undoubtedly is an odd one," he whispered.

Effect of Relaxation.
Dr. Long Mayhew Young of Chicago does not agree with us that sleeping on the front is good, says the New York Press. But he seems to be in his own mind an expert on relaxation. "In my opinion," he says, "the want of relaxation is the principal cause of insomnia. To produce relaxation we must first equalize the circulation of the blood. This is very often accomplished by sleeping with the knees up, which throws the blood into the lumbar region. The position is rather tiresome (I should say so!) and on stretching out the legs equalization and therefore relaxation takes place. For insomnia supervening upon nervousness I would advise taking some good, long breaths. When due to want of control of the thinking apparatus eat three or four ginger snaps (ten cents a pound), which will warm up the stomach and transfer the nervous energy to the solar plexus, or stomach brain."
